Patchen doing lit 12012 seconds. This is the best time for the distance ever made on a Canadian track. Gentry evidently was not ripe for a race and Andrews did not try to push him. The crowd was the largest of the meeting. The racing was long delayed by much scoring as Starter McElery was hard to please. of the American Whist League is now at its

best, every event having a large number There is nothing of the old nonsense, asking about systems or conventions, but just sit down and play. In the principal event, for the Hamilton trophy, the Chicago Whist Club is in the lead with four straight wins, but the Knickerbockers of New York still have a good chance, as they have defeated such good teams as George Bunn's from St. Paul.

The second team of the Knickerbockers-Adams, Church, Robinson and Buchanan—won a place in the finals for the A. W. L. trophy, but were beaten by Detroit in the first round of the semi-finals. The Americans of Boston beat the Acacia Club of Buffalo, and the Baltimores beat the Hamiltons of Ontario. There are twenty-one entries for the Minneapolis cup, which is for the pair champion-hip. William Thomson and J. P. Fogel are playing for New York.

In the open events Miss M. H. Campbell and Dr. Cole of New York won first prize North and South, Mr. and Mrs. Heald of the Long Isla'd Club, Brooklyn, getting first prize East and West. In the evening games yesterday and this afternoon the winners were:

Mrs. C. B. Lloyd and F. M. Mathias of Toledo. Mrs. B. A. Kruger and A. M. Knickerbocker of Syracuse, Mrs. William Snaw and C. B. Lloyd of Toledo, A. B. Gaither and F. A. Huntermitter and W. E. Thompson of Allegheny, Pa.: Mrs. R. B. Dickinson and Miss Besste Dickinson of Syracuse, the Hamilton trophy, the A. W. L. Challenge cup and the Midneapolis cup, all those who are knocked out in the preliminaries going into the open pairs. So far W. E. Talcott of Clevelend has beaten all records by winning a prize in every event he has entered since the congress began, making four top scores.

Tannehill was punished as severely as Kitson, the triples by Dahlen, Daly and Jennings offsetting the terrifichome run drives of Beaumont and Clarke, but he received much better support than the Brooklyn star received. Each of the seven Pirates who were called upon to perform made at least one fine play. Clarke's contribution was a running catch of McGuire's line drive was a running catch of McGuire's line drive to left centre, while Ely cut off three base hits. In the first inning Williams and Wagner each singled and stole second and both scored on Daly's fumble of Ritchey's grounder. Dahlen went around in the second on a base on balls and hits by Cross and Daly. In the third Beaumont sent a homer to the left field fence. Brooklyn took the lead in the fifth, when Daly tripled and scored on McGuire's hit. Kitson got a life and Williams fumbled Jones's bunt. Keeler filed out, but McGuire reached the plate when Jennings forced Kitson. Kelley's single scored Jones. Beaumont crossed the plate on a bunt, a fly out and errors by Keeler and Cross in the last half of the fifth. Four hits, Jennings's error and a wild pitch gave Pittsburg two runs in the six th, but Brooklyn tied the score again in the seventh, tallying twice on singles by Jones and Keeler and Jennings's triple. INTERNATIONAL REGATTA AT PARIS. Four-Oared Shell Race for World's Champion-

ship Will Be Bowed With Conswains. An official communication has been received from Edmund Fleutiaux, who has charge of the international regatta at Paris, confirming the news published in THE SUN some time ago that the four-oared race will be rowed in shells carrying coxswains. This was quite a surprise to the officials in charge of the enterprise to send the American crews abroad, as not a word had passed during the early correspondence on the subject to lead to the idea that coxswains would be compulsory in any of the world's championship races except the eight-oared event. Secretary Fred Fortmeyer of the N. A. A. O. took the greatest care to become acquainted with all the details pertaining to the regatta when the matter was broached a year ago, and upon recelving a letterhead from the French association with a cut of eight scullers in a shell, instead of the regulation sweeps, he immediately

wrote to inquire if they used sculls in eight-Though the important point has been overooked in the four-oared race, and the American crew will be at a slight disadvantage, compared with Continental oarsmen, it will not change the original intention to send a four across the water. The officials here find satisfaction in the fact that the English oarsmen, America's most dangerous opponents, will be equally at sea with a coxswain in the boat. The Englishmen registered a vigorous kick against coxswains being required, but, according to the French authorities, the precaution is essary on the Seine course to prevent fouls.

ing to the French authorities, the precaution is necessary on the Seine course to prevent fouls. It has been decided to send two boats for the four-oared crew, one the regulation shell used in races here, and the other with a seat for a conswain. If the Americans should be defeated in the international race with conswains, they will receive an opportunity to redeem themselves in the regatta for the championship of Europe, which will take place about a week after the world's championship.

"There appears to be every disposition on the part of the managers to treat the Americans with consideration. The latest evidence of this is the appointment of Fred R. Fortmeyer as a member of the Grand Jury of the regatts, which will supervise the whole proceedings. The appointment is made by the Exposition Commissioners and carries with it a diploma of the Exposition.

Although arrangements are only being made to send singles, doubles, four and eight-cared crews across, this does not mean that those events are the only ones in which the Americans will compete. The entries for the regatta do not close until Aug. 1s. By that time our oarsmen will be at Paris, and will be able to luck over the programme, estimate the probable competitors and make up combinations for such other races as may be thought advisable to compete in without jeopardizing their chances and the events already outlined.

It will be distinctly understood that the men who go abroad will do so as representatives of the N. A. A. O., the organization that provides the sinews of war, and not as members of any particular club. They will wear rowing shirts with "U. S. A." on them instead of their club colors. This arrangement will improve their chances of victory, as in case of the illness or loss of form through climatic or other influence of any of the men in the selected crews, it will be easy to replace them with other crack oarsmen in the party.

The pair-oared race is one of the events not included in the original schedule, in which America is almost sure to

INSPECTOR DAY WARNS PLAYERS.

ian and as in past seasons, players were most apt to cause trouble on the field in the latter half of the season. I wish again to caution league players against any infraction of the rules whereby they would be subject to discipline by the League.

The conditions are such, though possibly not fully realized by players, that should charges be preferred against a player and substantiated, the League would be obliged to inflict such punishment upon the player as would clear its skirts of the humiliation it has suffered through similar offences in years past. If the case should be an aggravated one I would not be at all surprised if the blacklist is again resorted to.

"It was this line of reasoning that induced me to caution players so strongly before the season opened and which causes me to again urge them to avoid any such possibility."

Inspector Day is undoubtedly sincere in his efforts to purge the game of ruffianism and disorderly conduct, but the public is well aware of the fact that the men who control the clubs and employ both umpires and players are not in accord with Mr. Day's views.

CRICKET.

LONDON, England, July 12.- The Haverford College cricket team met with its first genuine defeat at Lord's here to-day, where the Marylebone C. C. gained the victory by 87 runs and four wickets to spare. On account of the good showing made by the Americans in the games played so far the M. C. C. decided to play a much stronger team than it would other-

play a much stronger team than it would otherwise have done, and the Haverfordians had only defeat to expect at the hands of such a powerful opponent.

The visitors were successful at the bat, running up a score of 176. W. S. Hinchman carried off the honors for his team with a well-played inning of 35. S. W. Mifflin kept up his record, too, in good style and added 30. The M. C. C. had such noted cracks as A. E. Stoddart and P. F. Warner. This pair made a fine opening, while P. F. Warner was amply revenged for his treatment by the Phiadelphia "Colts," for he defied all efforts to dispose of him until he hai put on 137. W. W. Justice and L. W. de Motte did the best bowling for Haverford, and after the first partnership was broken no pronounced stand was made except by Warner.

The Haverfordians will rest to-morrow. They will play their next game against Winchester on Saturday. The score to-day:

CHICAGO, July 12—Harry Vardon, the exopen British champion, defeated Willie Smith, the open champion of America. by 4 up and 2 to play, in a thirty-six-hole match at the Midlothian Country Club to-day. This is the second victory that Vardon has scored over the American champion since he began to tour this country, winning before at the St. Augustine Country Club by 2 up and 1 to play, during the winter. It was a close match from the start and Vardon led Smith by a few yards in the drives for each hole. Both did even work on the putting green, but Smith lost by his inconsistent approaching. Vardon won one of the byeholes and was five up at the finish. At the conclusion of the first eighteen holes Vardon was a up and when the thirtieth hole was finished. Smith was 2 down. Smith had taken two holes in succession and it looked as though he would recover the lead at this point, but by holing a long put at the thirty-first and taking the thirty-fourth, Vardon won. In regards to his future plans "Kid" McCoy has this to say: "I will not do any training or fighting this summer. In the fall, however, I will be ready to face any man my weight. Just now I am attending the races. Once in a while I make a 'scoop." The Kid is making a "book" at the trace.

Hanover ruled favorite. W. Keyes took out Ten Candles and Perry Belmont withdrew Gonfalon. This reduced the field to five with the surprisingly liberal odds of 9 to 5 on offer against the Beard champion. The 40 to 1 shot, Stuart, got away in front and opened up a gap of three lengths, which the others failed to reduce perceptibly until the turn for home. Then Prince of Mel bourne, who had been rating along comfortably in second position moved up and won in the easiest style by a length and a half. James responded gamely to Mitchell's call in the stretch and beat Bombshell three lengths. Stuart could not hold his place, but he had the satisfaction of beating David Garrick, who wound up an inglorious last. The race began in a heavy rainstorm and the time, under the

Followers of Browndale again made him favorite in the opening dash for maiden twoyear-olds, but once more he proved a counterfeit investment and the race went to the strongly played tip, Queen Pepper, who beat another good thing, Tom Kenny, by a head. A disaster was narrowly averted in the second race, which was a condition affair for four-year-olds and upward, at one mile and a sixteenth. Nine fair performers turned out with Dolando favorite at 2 to 1. O'Connor on Arthur Featherstone's well-backed candidate, Andronicus, carromed into Slack on Lindula at the first turn and the latter combination cut off Maher on Dolando. Meanwhile Hare Perfume was humming along in front and held his own to the stretch, where Andronicus, Dolando and Handcuff moved up and finished, one, two, three, in close order. Maher lodged a complaint against Slack, who promptly threw the blame on O'Connor. The result was the disqualification of Andronicus and the suspension for the balance of the meeting of his reckless rider. O'Connor's case will be referred to the Jockey Club for more drastic treatment. S. C. Hildreth made a determined effort to get back old Dolando and raised him from the entered selling price of \$600 to \$1,700. The Fleischmann representative bid the necessary \$5 and retained the former "beef an" champion.

James Butler's noted pacing stallion Direct, 2:06½ bids fair to be among the leading sires of the year. Bonnie Direct, a green racer by Direct out of Bon Bon, 2:26, by Simmons, 2:28, made a record of 2:14¼ in winning his maiden race at Windsor last Monday. He has gone a mile in 2:11½ in his work and is said to be capable of beating 2:10. The youngster is in the string of Tom Keating, who will start him in the \$5,000 Chamber of Commerce Stake at Detroit next week. Rey Direct, a black colt by Direct, with no previous record, won the 2:25 race at Santa Rosa, Cal., last week, pacing his miles in 2:14½.

Both horses are by Direct out of Vera, 2:25, by Kentucky Volunteer, grandam Lady Graves, by Smuggler, 2:15½. Another fast-going son of Direct is the three-year-old trotter Cole Direct in the string that Bert Shank is campaigning for Mr. Butler. This colt worked a mile in 2:19½ a few days ago on the Cleveland track. He is entered in the \$6,000 Horse Review Stakes to be trotted at the Buffalo Grand Circuit meeting next month.

Battlesign, the winner of the 2:25 trotting race at Windsor last Tuesday, is owned by Gen. Charles Miller and Congressman J. C. Sibley of Franklin, Pa., who bred him. He started at Windsor without a public record and trotted his first winning mile in 2:14¾, cutting the mark down to 2:13¼ in the third heat. It is said that George Alex was not once cut loose during the Island Wilkes, Jr., Steps Off Three Fast Heats at Dover. DOVER, N. H., July 12.—Favorites lost to-day. After the race which resulted in Jockey O'Connôr's suspension yesterday it was asserted by persons in the paddock who wre in direct line with the crowding incident that the trouble was really started by Turner on Gen. Lively Sport in Sunshine and Rain at Brighton Beach—Andronicus Loses a Raco Through O'Connor's Rough Riding—Tho Jockey Set Down for the Rest of Meeting. The racing at Brighton Beach was a little ore satisfactory yesterday as the blue pencil hurt only two events. Invigorating ocean preezes gave way to thunder clouds a couple of times during the outing, but the track needed sprinkling so badly that the rainfall scarcely hurt it. Three favorites pulled through, but as one was at prohibitive odds, the books probably had the better of the argument. There was a keen struggle among the jockeys for percentage honors and Turner and Spencer broke even with two wins each. Richard

of David Garrick, and the uncertain son of

conditions, was highly creditable.

Luke Ward justified the confidence shown by his admirers in the handicap for two-year-olds and landed the money after a rousing head finish with The Rhymer. Mitchell, who rode Scurry into third place, complained to the stewards that Turner on the winner had cut him off coming out of the chute. Turner denied it and the matter ended in a Scotch verdict of "not proven." Voter beat his only opponent, Mark Cheek, in an open gallop. Four horses declined the issue and no claimant turned up for third money. The useful sum of \$50 accordingly went back into the treasury. Her Ladyship, Dan Rice and Wax Taper were the choices in the sixth race, but Three Bars, played from 10 to 1 to 6 to 1, won out by three parts of a length from Autumn, who beat Dan Rice a head.
